## Executive Summary

This deliverable aims to describe any remaining issues that have not been addressed in the deliverables D10.1. Humans, D10.2. Personal Data, D10.3.

More specifically this deliverable will mainly be focused on the following two aspects: 1) how the Sharework solution will ensure the safety of the system and the human, while human-robot collaboration takes place; and 2) how the system will be secured in terms of cybersecurity to ensure the security and privacy of sensitive data of both individuals and the company as well as measures that aim to prevent the disruption of system operations.

This deliverable will also include a brief mention to the treatment of personal data described in D10.2, as requested by the EC in its Requirement No. 4.
