Executive Summary

This Plan of Use and Dissemination of the results is an internal and confidential document dedicated to members of the SHAREWORK consortium. The content was built upon the insights and inputs provided by the whole consortium in order to gather and rationalize the dissemination activities and to identify the first results of the ongoing project.

Firstly, it aims to present the current results that have been disseminated and the coming ones with the dedicated communication strategy. Targets, channels, formats and timeline are presented in the Dissemination part of the PUDR.

Secondly, it presents an overview of the current identified results from the partners and a global strategy to cope with them. This Plan is the first among four (PUDR-I, PUDR-II, PUDR-III, Final PUDR) that will be published over the project duration. This first PUDR is setting-up the basis in terms of potential exploitable results and strategy. The upcoming PUDRs will be built upon these ones and will provide details and fill the gaps step by step in order to improve the exploitation strategy and increase the granularity level of the information provided (IPR management, exploitation format, pricing strategy, ...).
